

Unleashing Leaders, Inc.
Junior Business Analyst

Job Summary:

We're on the lookout for skilled Jr. Business Analysts to join us in delivering excellent results for our clients. This position is typically responsible for business requirements gathering and analysis including identifying business needs, evaluating potential enhancements, developing and documenting technical solutions to business problems. This role requires a level of energy and assertiveness to drive work with multiple groups in a complex, busy environment. Successful candidates will possess experience and exposure to evaluating, coordinating and creating deliverables; meeting with customers and resolving issues.

You could be essential to the success of client projects as you and your team develop new, innovative solutions to complex business challenges. Your problem-solving ability, analytical mind, and drive to exceed expectations will lead you to excel in this role.

Responsibilities:

- Business Process Analysis and Improvement
- Understand the business needs & gather requirements from clients.
- Analyze requirements and prepare different use cases and user stories.
- Develop one or more solution alternatives
- Review of solution(s) with stakeholders.
- Travel to work at client sites.

Skills Required:

- Strong communication skills must be able to communicate with technical and non-technical parties.
- Ability to analyze current systems/requirements and develop strategies for systems development.
- Ability to work independently as well as collaborate with others.
- Strong project and time management skills.
- Can assist in defining projects, effort, and staff requirements.

Desired Requirements:

- BS/BA degree Required Or equivalent education/experience.
- Healthcare experience or education.
- 1-3 Years of Professional Work Experience.
- Experience and/or expertise in Project Management.
- Experience with Scrum or Lean Six Sigma.
